Niagara Bottling Acquires Absopure's Retail Bottled Water Business, Invests in U.S. Manufacturing Infrastructure

DIAMOND BAR, CA—June 23, 2026 – Niagara Bottling has acquired Absopure's retail bottled water business.

In conjunction with this acquisition, Niagara will be moving forward with an additional investment of several hundred million dollars in manufacturing infrastructure throughout the Midwest, Northeast, West Coast, and Southwest. These new investments in technology will help us to continue modernizing our manufacturing footprint and will use less energy, less packaging material, and less freight emissions. These initiatives will keep skilled American manufacturing jobs right here in the United States.

Our commitment to the U.S. market and our customers remains unchanged. As a family business with 9,000+ team members across 50+ plant locations, we are now able to further build on our network to serve our customers nationwide. That same focus on quality and service is what drew us to Absopure - a family-built brand with deep roots, known and trusted by retailers and families alike. We are pleased to welcome them into the Niagara family and look forward to growing the brand for years to come.
